## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER - DRINKING WATER PROBLEM CORRECTED

Dear El Cariso Residents,

We are pleased to inform you that the Do Not Drink - Do Not Boil notice **has been lifted** for your area. Recent water quality tests have confirmed that the water supply now meets all state and federal drinking water standards and is **safe for all uses**, including drinking, cooking, brushing your teeth and preparing food.

### What this means for you

It is no longer necessary to avoid drinking or boiling your tap water. You may now resume normal use of the water for all household purposes. Our team has worked diligently to restore safe water service, and we appreciate your patience and cooperation throughout this process.

### Ongoing work in your area

Please note that while the Do Not Drink - Do Not Boil notice has been lifted, our crews will continue to flush and sample the water system in your area for quite some time. This ongoing work is part of our effort to ensure the long-term safety and quality of your water supply. You may experience slight changes in water pressure or appearance as the system stabilizes, but this is normal and does not affect the safety of the water. Do not be alarmed if you continue to see EVMWD crews working in your neighborhood — this is part of our continued commitment to providing you with safe drinking water.

### **How to Stay Informed**

For regular updates or any questions, contact our customer service team at **951-674-3146** or visit **EVMWD.com/Fire**. We are here to help and ensure you stay informed throughout this process.

Thank you again for your patience and understanding as we work to maintain the highest standards of water safety for our community.

**Sincerely,**

Mike Ali

Water Quality Administrator

Elsinore Valley Municipal Water District
